Summary

Management reports - Sage.expressions.Line50.period.periodAggregate(system.string.system.int32, system.int32) is not defined

Description

On downgrading from Sage 50 Accounts v23.2 to v23.1 the management reports, including the profit and loss and balance sheet reports, no longer work and generate the following error:

”

Sage.expressions.Line50.period.periodAggregate(system.string.system.int32, system.int32) is not defined

This article explains how to correctly downgrade to Sage Accounts 23.1 from 23.2 avoiding potential issues with reporting.

Resolution

To correct this issue there are installation and removal steps to complete, before following these steps, please ensure you are logged on as an [Administrator](#) (http://ask.sage.co.uk/scripts/ask.cfg/php.exe/enduser/std_adp.php?p_faqid=15082).

Delete the contents of your Temporary folder and reinstall Sage 50 Accounts v23.2

1. Hold down the **Windows key**  and press **R**, in the Open box enter **%temp%** then click **OK**.
2. Hold down **Ctrl** and press **A**, then press Delete and click **Yes**.
3. Now reinstall Sage 50 Accounts v23.2, If required, the update is available [here](#) (<http://downloads.sage.co.uk/download/?did=7401e4ac-b7db-4397-b37b-49363bab1124>).

Uninstall Report Designer and Sage 50 Accounts v23

1. Hold down the **Windows key**  and press **R**, in the Open box enter **%temp%** then click **OK**.
2. Open the SageAccounts folder, then open the **V23Update2** folder.
3. Right-click **Sage50AccountsV23ReportDesigner.msi** and click **Uninstall** and follow any on-screen prompts.
4. Hold down the **Windows key**  and press **R** in the Open box type **Control Panel** then click **Enter**.
5. Click **Programs and Features**, locate and right-click **Sage 50 Accounts v23** then click **Uninstall**.

Delete the contents of the Sage Accounts Installation folder

1. Browse to and open the Accounts installation folder. For a standard installation of the software the Accounts installation folder is located in C:\Program files (x86)\Sage\Accounts.
2. Hold down **Ctrl** and press **A**, then press **Delete** and click **Yes**.

If you use Excel Integrated reporting

1. Browse to the files shown in the table below, right-click and choose to rename.

2. Rename the files by changing the file extensions from **.dll** or **.xla** to **.old**

File name	Location - 32 bit computers	Location - 64 bit computers
sgxladdin.dll	C:\Windows\System32C:\Windows\SysWOW64	
sgxladdin_97.dll	C:\Windows\System32C:\Windows\SysWOW64	
sageintegratedreportinglinkage.xla	C:\Windows\System32C:\Windows\SysWOW64	
sageintegratedreportinglinkage2.xla	C:\Windows\System32C:\Windows\SysWOW64	
sageintegratedreporting97linkage.xla	C:\Windows\System32C:\Windows\SysWOW64	
	C:\Program Files\Common Files\SageLine50	C:\Program Files(x86)\Common Files\SageLine50
sxlline50addin.dll		

Reinstall Sage 50 Accounts v23 and the v23.1 update

1. Install Sage 50 Accounts v23 into a new directory. If you don't have an installable version of the software you can log into your Sage Account and download from there.

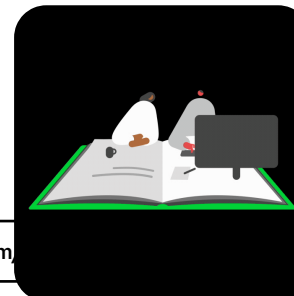

To specify a new installation directory, in the installation wizard choose the Advanced installation type.

1. Delete the watermark.xml file that's held alongside the data folder, ACCDATA.
To do this, open **Sage Accounts** then in the **Select Company** window select the required company and click **Open Folder Location**, then delete the **watermark.xml** file.
2. Install the v23.1 update available [here \(http://downloads.sage.co.uk/download/?did=2a6a17a0-df58-4b95-8866-4a7841fcef2f\)](http://downloads.sage.co.uk/download/?did=2a6a17a0-df58-4b95-8866-4a7841fcef2f).

Upgrading your licence

Need a little more room? To add extra companies, users, employees or more to your software licence, leave your details and we'll be in touch.
